EDUCATION

Master of Science (M.Sc.) – Bioinformatics

Union Christian College, Aluva

Mahatma Gandhi University | **2025**

Bachelor of Science (B.Sc.) – Bioinformatics

MES M.K. Mackar Pillay College for Advanced Studies, Edathala

Mahatma Gandhi University | **2023**

PROJECT EXPERIENCE

- **Online Library Web Application – Django** | [GitHub](#)

Technologies: Python, Django, HTML, CSS, Bootstrap, MySQL

- Developed a web-based library application for browsing books and submitting reviews and ratings.
- Implemented backend functionality using Django Models, Views, Templates, and Django ORM.
- Developed user registration, login, and logout functionality.
- Created a review module for adding, viewing, and deleting reviews.
- Managed relationships between books, users, and reviews using Django ORM.
- Designed a responsive interface using HTML, CSS, and Bootstrap.

- **To-Do List Web Application – Django** | [GitHub](#)

Technologies: Python, Django, HTML, CSS, Bootstrap, MySQL

- Developed a web application for creating, updating, deleting, and managing daily tasks.
- Implemented Django MVT architecture and database operations using Django ORM.
- Developed user registration, login, and logout functionality.
- Created responsive interfaces using HTML, CSS, and Bootstrap.
- Implemented form validation and task status tracking.

- **Calculator Web Application** | [GitHub](#)

Technologies: HTML, CSS, Bootstrap, JavaScript

- Developed a responsive calculator for performing basic arithmetic operations.
- Implemented calculation logic and user interactions using JavaScript.
- Designed the interface using HTML, CSS, and Bootstrap.

- **Ceremony Poster Designs** | [GitHub-1](#), [GitHub-2](#)

Technologies: HTML, CSS

- Created Baby Shower and Baby Naming Ceremony poster designs using HTML and CSS.
- Applied CSS for typography, layout, image positioning, backgrounds, borders, and decorative elements.
- Designed culturally themed and visually balanced web layouts.

ACADEMIC PROJECTS

- **Computational Studies of Trigonelline Derivatives Against ADRM1 – 2025**

Tools: ZINC, BIOVIA Discovery Studio, SwissADME, AutoDock Vina, LigPlot+, InterPro

- Studied the interaction of Trigonelline derivatives with ADRM1 (RPN13) protein for potential anticancer activity.
- Retrieved and prepared the protein and ligand structures, evaluated drug-likeness and ADME properties, and performed molecular docking.
- Analyzed protein–ligand interactions and docking results using computational bioinformatics tools.

- **Phylogenetic Analysis of Nucleoprotein in Viruses – 2023**

Tools: PHYLIP, TREEVIEW

- Performed phylogenetic analysis of nucleoprotein sequences from five viruses belonging to a common family.
- Compared the sequences and constructed a phylogenetic tree to study their evolutionary relationships.
- Visualized and interpreted the resulting phylogenetic tree using TREEVIEW.

SKILLS & INTERESTS

Programming: Python, C, Perl

Web Technologies: HTML5, CSS3, Bootstrap, JavaScript

Framework: Django

Database: MySQL

Other: Linux, Git, REST

Bioinformatics: Molecular Docking, MEGA, Phylogenetic Analysis

CERTIFICATIONS & TRAINING

- **Python & Django Development Course** – 6 Months, Offline, Avodha Institute, Kannur
- **Computational Genomics** – Qualified, NPTEL
- **Bioinformatics Internship** – 2 Months, Academor Edutech
- **NGS Workshop Series: RNA-SEQ: ANALYSIS PIPELINE** – 6 Days, Online Workshop
- **AI and Robotics** – 1 Day Webinar, GeneFitHub

PROFESSIONAL SKILLS

Problem Solving | Debugging | Communication | Teamwork | Project Management
